

	Note: If the provided worksheet is in black and white print or notebooks are with different colour coding then it's safe to say, line number 1, line number 2 line number 3 and line number 4 while giving directions for the formation of the lowercase letters. Focused Task: Share WILF: I am looking for the correct formation of the lower case letters from a -z - Ask students to first write their name on the top of the worksheet and then form the lowercase letters from a –z following the correct directions. Share TIB: It will help you to write and identify the lowercase letters from your surroundings e.g billboards, newspaper text, cereal boxes, books, games etc. Wrap up: - The teacher will call out a few names of the students and ask the rest of the class members to guess the initial sound of the names eg Teacher will say Nimra, what is the initial sound of Nimra, and students will reply n...n Nimra. The same practice will be followed for other names e.g Abdulla, Fatima, Rayan, and so on. Play the song: Alphabet Song Small Letters a to z	30 mins 5 mins	See the attached worksheet for week 1 day 1 in the same folder (put starting dots for a-z on the worksheet before sending it for photocopying, five alphabets can be easily written in one row) Alphabet Song Small Letters a to z (0 mins 40 secs) from: https://www.youtube.com/watch?v=5SUMcxRLvMQ
