

Class: I Subject: Science Chapter: 1 Topic: What are the Different Parts of a Plant Week: 2 Day 2 Date: _____

Students' Learning Outcomes (SLOs)	Methodology	Time 40min	Resource s	Assessment
By the end of the lesson, students would have: identified the different parts of a plant.	Introduction: - Inform the students that today we are going to learn about the different parts of a plant. Engage: - Draw a picture of a plant on the board. Be sure to include roots stems leaves, flowers and fruits. - Ask your students to tell you what you have just drawn. Once someone answer plant, ask your student whether or not anyone can tell you the different parts of a plant. - Allow you students to make suggestions for the labels. - Wrap up by saying that plants have different parts they are known as leaves, stem, roots, fruits and flower. Explore: - Divide the class into three group - Give each group a complete plant. - Ask them to explore its part and generate a discussion about different parts. - Ask anyone of them to present their findings in the class. Explain: - Tell the students to read the textbook pg. 10. - Explain different parts of a plant from the textbook. Elaborate: - Tell the students to read the fascinating fact from textbook pg. - Ask the following questions?	1 10 10 4		Students will be assessed on: identifying the different parts of a plant.

	---What is the fastest-growing plant in the world? ---What is the length of bamboo plant? ---What is the slowest-growing plant in the world? Evaluate: - Ask the students to label the diagram given in the textbook pg. 11. Wrap up: - Ask: What are the different parts of a plant?	4	1	
Evaluation of the student Learning:		Evaluation of teaching:		
- What did the students learn in this lesson? - What were they not able to do / understand?		- What went well? How do you know? - What went wrong? How will you fix it?
