

MATHEMATICS SCHEME OF WORK – CLASS II
2021- 2022

Term I			
Sr. No.	Topics- Student's Book Class II	Focus	Time
1	Chapter 1: Numbers to 1000	- Count in hundreds, tens and ones to tell the number of objects in a given set. - Represent numbers within 1000 in hundreds, tens and ones. - State the values of the digits in a given number. - Read and write numbers to 1000 in numerals and in words. - Compare and order numbers within 1000. - Recognise and complete number patterns. - Recognise odd and even numbers	2 weeks
2	Chapter 2: Addition and Subtraction	- Recapitulate writing a family of four basic facts within 20 given any one of the basic facts - Add a 3-digit number and a 1-digit number/a ten/a hundred without regrouping. - Add two 3-digit numbers without regrouping. - Add a 3-digit number and a 1-digit number/a ten with regrouping. - Add two 3-digit numbers with regrouping. - Subtract a 1-digit number/a ten/ a hundred from a 3-digit number without regrouping. - Subtract a 3-digit number from another 3-digit number without regrouping. - Subtract a 1-digit number/1 ten from a 3-digit number with regrouping. - Subtract a 3-digit number from another 3-digit number with regrouping. - Solve 1-step word problems involving addition and subtraction.	2 weeks
3	Chapter 3: Multiplication Tables of	- Recall the concept of multiplication. - Relate multiplication to repeated addition and '___ groups of ___'.	1 ½ weeks

	2, 5 and 10	• Memorise the multiplication table of 2. • Memorise the multiplication table of 5. • Memorise the multiplication table of 10. • Solve 1-step word problems involving multiplication within the tables of 2, 5 and 10.	
4	Chapter 4: Dividing by 2, 5 and 10	• Use $\div$ correctly. • Relate division to grouping and sharing. • Divide within the multiplication tables of 2, 5 and 10. • Relate multiplication and division • Solve 1-step word problems involving division by 2, 5 and 10.	2 weeks
5	Chapter 5: Multiplication Tables of 3 and 4	• Memorise the multiplication table of 3. • Memorise the multiplication table of 4. • Solve 1-step word problems involving multiplication within the tables of 3 and 4.	1 ½ weeks
6	Chapter 6: Dividing by 3 and 4	• Divide within the multiplication tables of 3 and 4. • Relate multiplication and division by writing families of multiplication and division facts based on the multiplication tables of 3 and 4. • Solve 1-step word problems involving multiplication or division.	1 ½ weeks
7	Chapter 7: Length	• Estimate and measure length in metres. • Estimate and measure length in centimetres. • Compare and order lengths. • Measure straight lines and curves. • Solve word problems involving length (addition and subtraction). • Solve word problems involving length (multiplication and division).	2 weeks
8	Chapter 8: Mass	• Estimate and measure mass in kilograms	1 ½ week

		• Estimate and measure mass in grams. • Compare and order masses. • Solve word problems involving mass (addition and subtraction). • Solve word problems involving mass (multiplication and division).	
9	Chapter 9: More Word Problems	• Solve 2-part word problems • Solve 2-step word problems.	2 weeks
Term II			
10	Chapter 10: Dollars, Cents and Rupees	• Count the amount of money in a given set of notes and coins. • Read and write in decimal notation. • Convert an amount of money in decimal notation to cents only and vice versa. • Compare two or three amounts of money. • Solving word problems involving money in dollars only or cents only.	1 ½ weeks
11	Chapter 11: Two-Dimensional Shapes	• Identify straight lines and curves in 2D figures. • Explore the relationship between circle, semicircle and quarter circle. • Recognize the shapes used to form a figure. • Form different figures with shapes. • Copy figures onto square grids and square dot grids. • Identify symmetrical figures and draw the lines of symmetry. • Make and complete patterns with cut-outs of 2D shapes using one or two of the following attributes: shape, size, orientation and colour	2 weeks
12	Chapter 12: Three-Dimensional Shapes	• Recognise flat faces and curved surfaces. • Name and describe sphere, cuboid, cube, cylinder and cone. • Sort and classify 3D shapes according to attributes. • Form different figures with shapes. • Make and complete patterns with 3D shapes	2 weeks

13	Chapter 13: Fractions	• Fraction as part of a whole. • Notation and representations of fractions. • Make one whole. • Notation for writing a fraction in one whole. • Compare 2 or 3 unit fractions with denominators not exceeding 12 • Compare 2 or 3 like fractions with denominators not exceeding 12. • Add like fractions within one whole with denominators not exceeding 12. • Subtract like fractions within one whole with denominators not exceeding 12.	2 weeks
14	Chapter 14: Time	• Telling time to 5 minutes. • Writing time to 5 minutes. • Write time using a.m. or p.m. • Indicate a.m. or p.m. given some events. • Tell the time one hour later. • Tell the time half an hour later. • Write min for minute(s). • Write h for hour(s).	2 weeks
15	Chapter 15: Volume	• Use 1-litre containers to measure the volumes of water in different containers. • Estimate and measure volumes in litres (ℓ). • Solve word problems involving volumes (addition and subtraction). • Solve word problems involving volumes (multiplication and division).	2 weeks
16	Chapter 16: Picture Graphs and Tally Charts	• Read and interpret picture graphs with scales. • Read and interpret horizontal and vertical picture graphs. • Solve 1-step word problems using picture graphs. • Read and interpret tally charts. • Solve 1-step word problems using tally charts.	1 ½ weeks

17	Chapter 17: Rotation	• Understand what rotation means. • Draw the shape after a rotation in the clockwise or anticlockwise direction.	1 week

***Please note that 30 weeks have been planned instead of 37 Weeks, leaving 7 Weeks for Reinforcement for the Academic Year 2021-2022.**

Term 1: 16 Weeks, Term II: 14 Weeks
